As of 1 January 1954, the Department for Crystal Structure Analysis of the Academy Institute for Medicine and Biology in Berlin-Buch was transformed into an independent work group (Arbeitsgruppe) of the Academy. Its official designation is now the Deutsche Akademie der Wissenschaften, Arbeitsgruppe Kristallstrukturanalyse, Berlin-Buch, Lindenbergerweg 70. The Work Group is to be made an Academy Institute during 1954.

3. The conversion of the former department into an independent work group and its pending rise to the status of an Academy institute, together with increased appropriations for the hiring of new personnel, tend to show the increasing importance attached to crystal structure analysis in East Germany. It is of interest, in this connection, that the change of status and the increase in strength of Dr. Dornberger-Doll's group were deliberated on and approved by the Central Committee of the SED.
